RE: GREAT NECK HAND SAWS

We are pleased to submit herewith for your consideration our catalog sheets covering a very complete line of Hand, Mitre Back and Compass Saws which we are in a position to effect factory shipment in approximately 30/60 days after receipt of an order.

These are well-constructed saws in a wide range of quality and prices that should meet the varied requirements of your trade.

We particularly wish to call your attention to the Corsair line which are well-constructed saws yet very inexpensive and for which we feel there should be a large demand in your territory.

The list prices designated covering the various sizes are subject to the following discounts which apply FOB Cars, New York with export casing extra at cost:

Hand Saws (Skew Back only):	
Corsair and Glider Lines	- 40%
All other Hand Saws	- 45%
Mitre Back Saws	- 45%
Compass Saws and Nests	- 45%

At the present time only Skew Back Saws are being produced by the factory. Straight Back Saws will be announced at a later date.

Great Neck Hand Saws have a very fine reputation throughout the world from the standpoint of quality as well as competitiveness of price and we hope that they will also be of interest to you and that we will have the pleasure of receiving your valued orders which will have our very prompt attention.

Trusting that we will have the pleasure of hearing further from you regarding your saw requirements, we remain

Very truly yours,

HARDWARE & MACHINERY EXPORT CORPORATION
